

6-6-02  
Ordinance  
Service Connections

ADDENDUM  
TO WATER SEWER  
CONNECTION

THE CITY OF HAHIRA REQUIRES THAT EVERY SERVICE CONNECTION TO THE POTABLE WATER SYSTEM MUST BE METERED. THIS WILL INCLUDE ALL RESIDENTAL AND COMMERCIAL WATER SYSTEMS, FIRE SUPPRESSION SYSTEMS, IRRIGATION SYSTEMS, OR ANY TYPE OF WATER CONSUMPTION SYSTEM CONNECTED TO THE POTABLE WATER SYSTEM.

ALL SYSTEMS WILL BE READ ON A MONTHLY BASIS AND ANY WATER CONSUMPTION WILL BE CHARGE TO THE CONSUMER. (NOTE WATER USED TO CONTROL FIRES WILL NOT BE CHARGE TO THE CONSUMER. WATER USED TO TEST SYSTEM WILL BE CHARGE AND ANY WATER USED NOT TO CONTROL FIRES WILL BE CHARGED AS CONSUMPTION.)

THE FOLLOWING IS A LIST OF REASONS FOR THE METER SYSTEM FOR ALL WATER TAPS:

THIS WILL ALLOW THE CITY OF HAHIRA TO HAVE AN ACCURATE ACCOUNT OF THE WATER THAT IS CONSUMED BY EACH CUSTOMER. TO DETERMINE IF THE CONSUMER HAS A WATER LEAK AND UNDERSTAND WHAT THE NEEDS FOR THE CITY WILL BE IN THE FUTURE.
