#### DEPARTMENT REQUEST

- A. Approval to increase Police Officers pay

City Manager, Janice Logue asked for approval for an increase in Police officers pay. The city is a training ground for police officers. They are sent to the police academy for training, which costs a lot and takes a lot of time and effort out of the Police Department to have them trained. The city requires a three year contract. They can buy the contract out. Chief Davis researched salaries and found that Hahira was the lowest paid in the area. He also did a cost analysis of time and money to interview and go through the process of hiring the new officers. They studied the information and decided to bring the current police officers up \$1.50. That would start the new police officers at \$10.00 per hour. The additional cost through the end of the year would be \$3,781.00 to amend the budget on salaries. Chief Davis asked that he be taken out of the equation for the raise, but asked them to give it to the police officers and courtclerk.

**Council Bullard made a motion to table it until next month, seconded by Council Nelson. Discussion followed. Councils Nelson and Bullard voted yes. Council Ogundu voted no. Motion passed.**

D. Approval to solicit Sidewalk bids

Mayor Crowe stated they would continue with the sidewalk project on North Church Street and hopefully it would be completed before the Honey Bee Festival.

E. Approval to send Notice of Intent to Annex BP Station

Mayor Crowe stated that the BP Station located just over the overpass has never been annexed into the city.

A letter sent to the owners will have to be approved and in 30 days the city will proceed with the annexation process.

Chief Davis stated that the BP Station has a county beer and wine license. This would be an issue for Mayor and Council when they start to annex the property.

Councilman Ogundu stated that he wanted it on record that minorities could bid on the Sidewalk Project. Mayor Crowe stated that the city would advertise and whoever answers the advertisement will be considered.

**Council Bullard made a motion to approve the Consent Agenda, seconded by Council Nelson. Vote was unanimous.**

OTHER BUSINESS

A. Discussion on Building Inspections/Permits

Mayor Crowe reported that this was discussed at last month's meeting and he wanted to clarify some of the things that were discussed. He stated that he had mentioned a name for the Building Inspector and a citizen in the audience gave an indication that we should watch out for that person. Two weeks ago he met with the Building Inspector in Valdosta and asked about the person and was informed that he was one of the finest Building Inspectors in the state. He also stated that an issue on liability came up. A citizen said that we would be liable. A builder said that we would not be liable. Mike Martin said there was no liability, other than negligence on the Building Inspector and in that case, it would not come to the city. The only way it would be a liability to the city would be for the city to persuade the Building Inspector to do something he is not supposed to do. Mayor Crowe recommended to Council that they make no decision at this time on Building Inspections but do something to help the builders out. The Building Inspections Department in Valdosta agreed to do the Pre-Aps in their office. They would need a copy of the current business licenses. They would send us a copy of the completed Pre-Aps.

**Council Bullard made a motion to put the pre-applications with the City of Valdosta, seconded by Council Nelson. Vote was unanimous.**
